Our Commitment

to the United Nations Global Compact

As part of our Declaration of Sustainability, Grupo Financiero Banorte endorsed the United Nations Global Compact in 2011, making this framework and its ten principles, an integral part of our strategy, culture and operations, as reflected in our 2011 Annual Report.

As the Strong Bank of Mexico we express our full support for the United Nations Global Compact and its ten principles addressing Human Rights, Labor, Environment and Anti-Corruption.

At Grupo Financiero Banorte we define sustainability as maximizing profitability and growth of the institution, at all times ensuring a balanced development between the financial, economic, social and environmental aspects inherent in our operations. We believe that adherence and commitment to the United Nations Global Compact is an important step in this direction, which helps to strengthen our mission and vision of long term development.

Beyond our support, we are also working to encourage a culture of sustainable practices in our value chain consistent with the principles of the United Nations Global Compact. To Make Mexico Stronger.

Alejandro Valenzuela
CEO of Grupo Financiero Banorte

Since 2011 Grupo Financiero Banorte (GFNorte) has been a signatory to the United Nations Global Compact, an international initiative that aims to integrate ten principles, in the areas of Human Rights, Labor, Environment and Anti-Corruption into organizational business strategy and operations.

Our 2011 Annual Report, in its PDF version, contains plans, actions and results with respect to the ten principles of the Global Compact, covering the period 1/2011 to 12/2011. This report was prepared in accordance with Guidelines of the Global Reporting Initiative 3.1 for sustainability reports (GRI G3.1) with a level of application of B+.

While ***GFNorte's 2011 Annual Report*** and the statement of ***Our Commitment to the United Nations Global Compact*** serve as our first official *Communication on Progress (CoP)*, for reference only, we have provided below some additional information, examples, links and initiatives relevant to the ten principles of the Global Compact from both 2011 and beyond (2012).

***NOTE:** Banorte's Social and Environmental Management System (SEMS), aims to identify, measure and mitigate social and environmental risks in certain Banorte credit operations, in accordance with Equator Principles, International Finance Corporation Performance Standards on Environmental and Social Sustainability (which includes, among other standards, **those involving issues of Labor and Working Conditions** - Performance Standard 2-) and Environmental, Health and Safety Guidelines. For the above, it is why such system is referenced here with various Global Compact principles.
